Dr. Paul A. Marks  
Department of Medicine  
College of Physicians and Surgeons  
Columbia University  
New York 32, New York

Dear Paul:

I see you've gotten into genetics too!

Could you favor me with a reprint of your paper on glucose-6-phosphate dehydrogenase, which appeared recently in Science, and the one on its inheritance (ref. 12 therein)?

Thanks, and regards from

Joshua Lederberg  
Chairman, Department of Medical Genetics
